MONSTERS outside technical list

equipe

3 performers

1 technician

Technicians theatre / festival

2 during set up; one for light, one for sound

1 during strike.

Time

Time for set up: 1 till 3 hrs

Time to break: 1 hrs

Time of the performance: 1 hrs

We try to create a kind circus arena. To make this possible we ask from the festival

- A performing space of 8 width and 6 deep.
- A black ballet floor to protect the dancers and the puppets
- A truss construction to hang the curtains at the back and the light for evening / indoor performances.

Light

Performances during the day time don't need light.

In the evening we need light.

We bring 6 small moving heads (moving lights), - 12 striplights (used as scenography), - 1 profilespot 90 degrees with gob - 1 Sunstrip.

We bring our light desk.

Sound

We need a F.O.H. and mixing desk from the theatre / festival

For questions about your specific situation and the technical equipment we need from the festival, please send a email to tech@dudapaiva.com
